Purpose of the consultancy

To support the GOAL Nutrition department to analyze and articulate the findings of the CVA for nutrition research.

Consultant deliverables

- The consultant will develop the CVA for nutrition research report with the following sections: Standalone Executive Summary, Background, Methodology, Limitations and Challenges, Analysis of Findings, Conclusion and Recommendations, Annexes.
- After data collection and cleaning for the endline survey is complete by the GOAL MEL team in early June 2024, the consultant will carry out an analysis and develop a report on the results by drawing a comparison between base and end line results with respect to the research design and contextual analysis.
- GOAL expects all quantitative data to be rigorously analysed and representative of the project area within the reasonable limits and constraints of the context, and for statistical tests to be conducted as needed. A statistical package (i.e SPSS, STATA, SAS, CPro, or other statistical application) will be expected to be used for quantitative data analysis.
- The report aims to address whether the project achieved changes in feeding behaviors in children and women as a result of the CVA vs. CVA + SBC intervention (see section 2: CVA for nutrition research). The consultant should plan for at least two rounds of review of the report by GOAL team.

- The consultant is expected to provide a presentation along with the report on the high-level results and present it to GOAL team.

CVA and nutrition research

Research Question: - What is the impact of household cash transfers with or without Social Behaviour Change (SBC) activities, on nutrition indicators including maternal and childcare practices, particularly feeding practices?

Working Assumption/Hypothesis:

1. Providing regular Cash and Voucher Assistance (CVA) for improved dietary consumption in addition to regular food assistance with or without SBC activities will result in an improvement in feeding practices for children 0-23m and pregnant women due to improving purchasing power within the household.
2. Providing additional SBC activities alongside CVA for nutrition and regular food assistance will result in additional improvements in feeding practices for children 0-23 months and pregnant women compared to providing CVA alone. The consultant will be responsible for analyzing the data and writing the report.

Research Design:

Study Type:	Intervention (quasi-experimental)
Number of Participants:	344 households (at baseline)
Allocation:	Non-randomized
Actual Study Start Date:	07 October 2023
Actual Study Completion Date:	30 June 2024

- **Intervention Group 1: “Food security CVA + Nutrition Voucher assistance + SBC”** GOAL Food Security beneficiary households receive 8 rounds of household nutrition e-vouchers to purchase nutrient dense foods and receive M-IYCF/N counselling (dietary diversity of pregnant women and infants 6-23 months and meal frequency, exclusive BF for 0-6 months, and prevention and treatment of malnutrition). In addition to 8 rounds of CVA to meet 70% of their food needs over an 8 month period.

- **Intervention Group 2: “Food Security CVA + Nutrition Voucher assistance”** GOAL Food Security beneficiary households receive 8 rounds of household nutrition vouchers to purchase nutrient dense foods in addition to 8 rounds of CVA to meet 70% of their food needs over an 8 month period.
- **Control: “Food Security CVA”** GOAL Food Security Beneficiaries receive 8 rounds of CVA to meet 70% of their food needs over an 8 month period.

Definitions of assistance provided:

- **Food security Cash and Voucher Assistance (CVA):** 8 rounds of food assistance to the value of 70% of the food part of the SMEB (Survival Minimum Expenditure Basket) for North-West Syria will be provided to households via a combination of unconditional cash transfers in USD and restricted e-vouchers. This assistance has the intention of reducing household food insecurity. The e-vouchers will be restricted due to a ban on alcohol and tobacco products purchased with the e-voucher all other items are unrestricted. The value will vary according to the household size with the aim of providing 70% of the food needs per household member.
- **Nutrition Voucher Assistance:** 8 rounds of unconditional, restricted e-vouchers for nutrition to the value of \$33 per household of 6 members will be provided with the intention of improving diet diversity in children 6-23 months and PLW, whereby the value will change according to household size. The e-vouchers will be restricted to food items excluding NFIs and “junk food” category items including sweets and sweetened beverages. 6 rounds will be provided to households with children under 2 years and 9 rounds will be provided to households with pregnant women.
